

Silk Screen Printing Supply Products Information

Heat press machine AS-23M

Description:

A heat press machine is the machine that presses a transfer onto an imprint able substrate. Using high temperatures and pressures for a certain amount of time, the transfer is permanently embedded into the product.

Heat presses are recommended for professional and satisfying results simply because standard laminating devices and home hand irons cannot get even near the temperatures required for a reliable transfer.

Specification:

Voltage: 220V/110V

Power: 600W

Printing area: 23X30cm (9"X12")

Package Size: 45X41X37CM

G.W:28KG/35KG --62LBS

How to print your digital photo onto T-shirt/Cloth/Garments:

1. Take a digital photo
2. Print it out on sublimation/transfer paper with your ink-jet printer
3. Set temperature to 185 - 190 Celsius
4. Set the desired time (varies from 20 sec. to 45 sec. Longer time leads to darker impression)
5. Put the paper in the position which you want print on T-shirt/Cloth/Garment
6. Our customized T-shirt/Cloth/Garment is done! Very Simple

Application:

For T-shirt, Pillowcase, Puzzle, Mouse Pad, Metal Board, Fridge Magnet, Coaster, Slipper, Bag, Cushion, etc
