

Silk Screen Printing Supply *Products Information*

Heat Press Machine AS-B110 12x12cm

Product Description

A heat press is the machine that presses a transfer onto an imprintable substrate. Using high temperatures and pressures for a certain amount of time, the transfer is permanently embedded into the product.

Heat presses are recommended for professional and satisfying results simply because standard laminating devices and home hand irons can not get even near the temperatures required for a reliable transfer.

- Voltage: 110/220V
- Power: 600W
- Temperature range: 0 to 300 degrees C
- Weight: 15kg
- Timing range: 0 to 999 seconds
- Printing area: 12 x 12cm
- Package dimensions: 45 x 41 x 37cm
- Small size but better printing
- Digital controller, unique design, economic to use, suitable for family printing or printing for small size products
