### TP-SC215 pneumatic single color Pad printing machine

Technology's parameter:

Color number: One color

Air cylinder plumb itinerary: 80mm

Air cylinder's level's itinerary: 200mm

Steel plate's size: 150× 75 , 100mm

Workbench's area: 280× 140mm

Most great seal's a height: 230mm

Biggest print diameter: 90mm

Biggest print speed: 1300pcs/ hr

Consume tolerance: 52L/ min

Power: 220V/ 50HZ 50W

Exteriority's size: 860× 400× 1220mm

Function's feature:

- 1、 Microcomputer control each's function operation, operate simple convenience.
- 2、 Have four digits automatic arithmometer.
- 3、 Machine architecture adopt high quality aluminum alloy, quality lightly firm.
- 4、 Oil gun ink, install tear open and washing convenience.
- 5、 Itinerary and timing fluctuation independent glue's head.
- 6、 Automatic balanceable scraper, scrape China ink neat and tidy.
- 7、 Can twice glue China ink print once, so that acquire compare big print printing ink.
- 8、 Can front and back blank line not fall glue head, prevent a little avast's time's printing ink dry solid.
