Katana Heat Press AS-207/38

A heat press machine is the machine that presses a transfer onto an imprint able substrate. Using high temperatures and pressures for a certain amount of time, the transfer is permanently embedded into the product.

Heat presses are recommended for professional and satisfying results simply because standard laminating devices and home hand irons cannot get even near the temperatures required for a reliable transfer

Specification:

Voltage: 220V/110V

Power: 1400W

Printing area: 38X38CM (15"X15")

Package Size: 74X49X48CM

G.W:27KG /60LBS

How to print your digital photo onto T-shirt/Cloth/Garments:

1. Take a digital photo
2. Print it out on sublimation/transfer paper with your ink-jet printer
3. Set temperature to 170-180 Celsius
