## Samurai Heat Press AS-105/38-45

Samurai unique design in the world LCD controller heat press machine is the machine that presses a transfer onto an imprint able substrate. Using high temperatures and pressures for a certain amount of time, the transfer is permanently embedded into the product.

Heat presses are recommended for professional and satisfying results simply because standard laminating devices and home hand irons cannot get even near the temperatures required for a reliable transfer

### Application:

For T-shirt, Pillowcase, Puzzle, Mouse Pad, Metal Board, Fridge Magnet, Coaster, Slipper, Bag, Cushion, etc

- LCD timer & temp controller - Preset desired time and an audible alarm will sound when time is complete. Set the desired temperature (in Fahrenheit) and element will stop heating when preset temperature is reached.
- Heating elements -Thicker heating plate with more even temp than other suppliers
- Teflon-coated element - The surface is non-stick, preventing scorching of transfers, and does not require a separate silicone/teflon sheet.
- Strong metal structure - Machine is heavy-duty, commercial-grade, super stable and built.
